SHEBOYGAN COUNTY

LABOR MARKET TRENDS

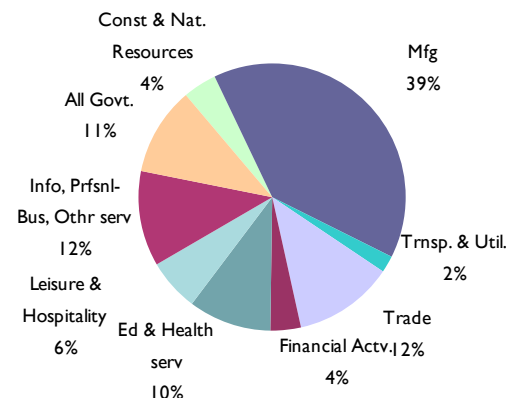

Sheboygan County...

has one of the highest percentages of workers employed in the manufacturing sector in the State of Wisconsin. Over 39 percent of the workers are employed in this sector, compared to just under 19 percent for the State of Wisconsin and just under 12 percent for the U. S. Employment growth in this sector grew more than most other sectors during the 1990's. However, this has changed during the last three years, and manufacturing employment has decreased.

Most workers live and work in the county, and the number of workers that commute to Sheboygan County for work is slightly larger than those that leave the county for work elsewhere.

Employment by Industry in Sheboygan County: 2002

The annual average wage in 2002 from employers in the larger major industry sectors was \$38,911 in manufacturing, \$24,742 in trade and transportation, and \$34,957 in professional and business services. The annual average wage from all employers was \$32,167, roughly 99. percent of the average wage for all workers in the state at \$32,422.
